INSTRUCTIONS

FOR USING THIS CODE.

It is of the utmost importance that all cipher words should be written carefully and distinctly. Each *letter* of the word should be so plainly written that it can not possibly be mistaken for any other letter. Care should be taken to dot the "i's" and cross the "t's." The letters *a*, *o*, *n*, and *u*, bear close resemblance when imperfectly formed, and too much care can not be taken in writing them. More errors in telegraphing in cipher arise from careless writing than from all other causes

In writing messages, begin every cipher word with a capital letter, and leave a little space between each cipher. This will lessen the chances of mistakes by telegraph operators.

When it is necessary to telegraph in ordinary language, and there is fear of its being misunderstood, begin that part of the message which it is desired should be read literally, with the cipher word "Pinafore," which will be found on page 218.

Words to fill blanks in sentences must be placed in the order in which they should be read, immediately *after* the ciphers for such sentences, except where the sentences begin with a blank. In that case, the word for the blank will immediately *precede* the cipher for the sentence.

All quotations for "Future Delivery Contracts" sold in New York and New Orleans are for basis of "Middling, American Standard classification. any grade from Strict Ordinary to Fair, inclusive."

When orders, with a limit of time for their execution, are received after the close of the market, the time will commence from *the next business day.*

Orders to buy or sell will be understood to be for account of the sender, unless otherwise stated.

In reports of purchases or sales, "for your account" will be understood, unless otherwise expressed.

All orders sent by this Code to buy or sell for Future Delivery will be with the distinct understanding that the purchases or sales so ordered are to be, in every respect, subject to the By-Laws and Rules of the Cotton Exchange of the market in which they are executed.

When several orders are embraced in the same message, and some of them are conditional, those which are *unconditional* should be written first; and the conditions should always *immediately precede* the conditional orders to which they refer.

Unless otherwise stated, Sterling Bills will always be understood to be drawn at 60 days' sight, and Domestic Drafts at sight.

Especial attention is invited to the Tables for giving quotations (pages 60, 61, 97 to 100, and 246 to 257), and to the Firm Offer Tables (pages 267 to 303).

Full explanation of the Firm Offer Tables will be found on page 271.

To express a price or quantity for which there is no "cipher" in the Tables of Numerals, use two or more "ciphers," the sum of which will express the desired amount; for example,—"*Applied, Antidote,*"—will be read, "2682."

To qualify quotations, use the Tables on pages 15, and 22 to 24. Examples: "*Attempt*" will be read "$\frac{1}{8}$ to $\frac{5}{32}$," "*Attention*" "$\frac{5}{32}$ to $\frac{7}{32}$," "*Browner*" "$\frac{6}{100}$ to $\frac{8}{100}$," "*Buckle*" "$\frac{12}{100}$ to $\frac{14}{100}$."

LIVERPOOL MARKET.

☞ *This chapter is chiefly intended to be used between points in the United States, to describe the state of the Liverpool market. Many sentences, however, can be used to advantage from Liverpool. In giving figures of advance or decline, messages sent at or before noon will compare with the closing prices of the previous day, and subsequent messages will be by comparison with the opening prices of the day. The Reports referred to are the official market reports. By using a cipher word from page 27, the time of day can be changed as may be desired, and the message thus made to give a private instead of an official report.*

FUTURE DELIVERIES.—INFORMATION AND ADVICE.

Exerted.....The contracts dealt in at the New York Cotton Exchange are for 45,000 lbs. of Cotton, growth of the United States, in about 100 square bales, of any grades from Strict Ordinary to Fair, inclusive, and if *stained*, not below Good Ordinary; delivery to be made at seller's option, any day from first to last day of the month covered by the contract, upon giving five days' notice to the buyer. Cotton can be delivered from dock or licensed warehouse, and, if desired, the contract can be filled by two deliveries of 50 bales each, at different dates, provided 5 days' notice is given previous to each delivery. The contract price is on the basis of Middling, American classification; allowances and additions for grades below or above Middling to be adjusted according to the differences fixed by the New York Cotton Exchange for like grades on the day of delivery.

Exerteth.. ...This being the last day for giving notice, we have sold out the purchases for....

Exerting.....We could not hold notice any longer, and therefore sold.

COST AND FREIGHT QUOTATIONS AND FIRM OFFERS (in Cents, Pence, and Francs).

It is assumed that the parties using this Table are so familiar with the markets, that it is only necessary to give the fractions of cents or pence, and the units and fractions of francs.

In domestic telegrams the quotations will be in CENTS; *in messages to England in* PENCE, *and in messages to France in* FRANCS.

By adding a Cipher word to express the quantity, the message will mean a FIRM OFFER *at the price and for the grade and number of bales named.*

Unless otherwise stated, shipment by sail to Europe, and by steam to points within the United States. The source of the message will indicate whether the offer is to buy or sell.

EXPLANATION OF FIRM OFFER TABLES ON PAGES 272 TO 303.

It is assumed that the correspondent is sufficiency well informed to render it only necessary, in stating the price, to give the fractions of cents or pence.

The term "Cost" is meant to include the first cost of the Cotton, ommission, brokerage, and all charges until the Cotton is on board.

Messages TO EUROPE will mean Firm offers to SELL, and messages FROM EUROPE, Firm offers to BUY the quantity and grade indicated. The terms being, cost, freight, insurance, and 6 per cent. for loss in weight. Price in PENCE. Prompt shipment by steamer or sailing vessel according to the Table used.

Messages sent within the United States will mean Firm offers to BUY or SELL. If sent to points NORTH or EAST the offers will be to SELL, and if to points SOUTH or WEST, the offers will be to BUY.

Messages, however, from the Southern ports to Southern interior towns will mean offers TO BUY, and messages from such towns to the Southern ports, offers TO SELL, without regard to geographical position.

The terms for DOMESTIC OFFERS will be COST AND FREIGHT only, and the price in CENTS. Prompt shipment by steamer or sailing vessel according to the Table used.

If the shipment is to be by railroad, add, after the Cipher word from the Table, the word "*Opalescent*" on page 187, meaning "*To be shipped promptly by railroad.*"

EXAMPLES.—"Skittles" *sent to Europe will be read*, "We make a firm offer to Sell at $\frac{1}{16}$d., cost, freight, insurance and 6 per cent., prompt shipment by steamer, 100 bales Cotton, the quality to be Middling."

The same word *sent from Europe will be read*, "We make a firm offer to Buy at $\frac{1}{16}$d., cost, freight, insurance and 6 per cent., prompt shipment by steamer, 100 bales Cotton, the quality to be Middling."

The same word *sent from any point in the United States to another point North or East of it, will be read*, "We make a firm offer *to Sell* at $\frac{1}{16}$c., *cost and freight*, prompt shipment by steamer, 100 bales Cotton, the quality to be Middling."

The same word *sent from the North or East to the South or West, will be read*, "We make a firm offer *to Buy* at $\frac{1}{16}$c., *cost and freight*, prompt shipment by steamer, 100 bales Cotton, the quality to be Middling"

In order to convey offers by thirty-seconds of cents or pence, add immediately after the Cipher word for the firm offer, the word "Absentees," meaning "*The price* $\frac{1}{32}$ *more*," or "Absenteth," meaning "*The price* $\frac{1}{32}$ *less.*"

To give an offer for any number of Bales not specified in the Tables, use a cipher from the first column, followed by the proper word from Table of numerals to express the quantity.

The words in the first column, unless followed by a cipher to denote the quantity, will mean 1,000 Bales.

To express a grade or description not included in the Tables, use the word on the first line of the column for the proper quantity, followed immediately by a cipher word (from pages 30 to 35), to signify the quality or description desired

FIRM OFFERS AT $\frac{1}{16}$ (CENTS OR PENCE).
